

# TECHNICAL DETAILS AND DRAWINGS

We strive to provide easy access to as much concise information as possible so that you can make an informed decision for your specific application. As always, if you cannot locate a specific detail, please call us at 1-800-311-5561 or (586) 802-5561 or contact one of our associates:

Dirk Loveland [dirk@unitedfiltration.com](mailto:dirk@unitedfiltration.com)  
Dan Heath [dan@unitedfiltration.com](mailto:dan@unitedfiltration.com)  
Aaron Garvin [aaron@unitedfiltration.com](mailto:aaron@unitedfiltration.com)

Master installation sheet for our full range of products:

[Technical Installation Sheet for Membrane Housings](#)

Nine basic questions to quickly and easily choose the right filter for your application. Call us at 1-800-311-5561 and we will walk you through it over the phone:

[Nine Questions to Choose the Right Filter Housing](#)

Troubleshooting – As always if you feel your filter is not performing properly, please call us at 1-800-311-5561 for immediate service. Safety is always our first concern so, be sure that your pressure is SHUT-OFF to the filter before any inspection is carried out. Attached is a basic trouble shooting chart:

## Does your project require special packaging?

### Assembly?

Here at United Filtration, we continually provide value added services to free up your work force. Do you need our filters to manifold to other items such as valves, connectors... we can do the assembly for you.

For more details please contact Aaron Garvin at [aaron@unitedfiltration.com](mailto:aaron@unitedfiltration.com) and give him your requirements.
